

ARMAGEDDON STEEL LEGION IMPERIAL GUARD ARMY LIST

“Strike fast and suddenly. Attack without warning. Secure victory before the foe is aware of his danger. Remember always, a war is easily won if your enemy does not know he is fighting.”

Lord General Solar Macharius

Forces

The Armageddon Steel Legion Imperial Guard Army List uses the datasheets from the Imperial Guard Forces section, the Imperial Navy Forces section, and the Titan Legion Forces section.

Using The Army List

The following army list allows you to field an Imperial Guard army that is based on an Armageddon Steel Legion regiment. It can also be used as a “stand in” army list for other Imperial Guard regiments, such as Cadian Shock Troops, Mordian Iron Guard or Valhallan Ice Warriors, among many others. Note that we have based the number of units in the infantry formations on what will be found in a typical field formation, rather than what is found in a full-strength company when first enlisted.

Steel Legion formations come in two types: *companies* and *support formations*. Each company you include in the army allows you to field any two support formations. Although you can only take a support formation if you first take a company, they are treated as separate independent formations during a battle and do not have to move around together. For example, taking a Steel Legion Tank Company would entitle you to take two formations from the support formation chart. If you decided to take an artillery battery then it and the tank company would operate as two separate formations.

In addition, companies may be given up to three company upgrades. Each type of upgrade can only be taken once by a company (i.e., an infantry company could have an Ogryn and a Sniper upgrade, but not two Sniper upgrades). Upgrades are added to the company and are not a separate formation. Support formations may not be given company upgrades. Each upgrade that is taken adds to the cost of the company, as shown on the upgrade chart. For example, if you took a Tank Company and added a mechanised infantry platoon to it as an upgrade, then the cost of the tank company would be $650 + 100 + 75$ (for the Chimera) = 825 points. Note that you may take any type of upgrade for any type of company; so, for example, if you want to include a platoon of Leman Russ tanks in an infantry company or snipers in a Tank Company then you may do so.

Armageddon Steel Legion Imperial Guard armies may be supported by Imperial Navy assets and Titan Legion battlegroups. A maximum of up to a third of the points available to the army may be spent on these formations.

SPECIAL RULE

Commissars

An Imperial Guard army may include one Commissar character per 500 points, or part thereof, in the army. The Commissars do not cost any points.

Commissar units may be added to the army at the start of the battle before either side sets up. If the army includes a Supreme Commander then the first Commissar must be attached to the Supreme Commander’s formation. Any further Commissars may be attached to any other formations.

You may not include more than one Commissar per formation. You may not add a Commissar to an Imperial Ally formation. If you have more Commissars than formations any excess is lost.

ARMAGEDDON STEEL LEGION IMPERIAL GUARD ARMY LIST

Armageddon Steel Legion Imperial Guard armies have a strategy rating of 2. Titan Legion battlegroup formations have an initiative rating of 1+. All other formations have an initiative rating of 2+.

STEEL LEGION COMPANIES		
FORMATION	UNITS	COST
Artillery Company	Any nine of the following units: Basilisk, Manticore	550 points
Infantry Company	One Commander unit and twelve Infantry units	250 points
Mechanized Infantry Company	One Commander unit, twelve Infantry units and seven Chimera	400 points
0-1 Regimental HQ	One Supreme Commander unit, twelve Infantry units and seven Chimera	475 points
Super-heavy Tank Company	Any three of the following units: Baneblade, Shadowsword	500 points
Tank Company	Ten Leman Russ (replace one Leman Russ with a Leman Russ Vanquisher)	650 points (Free)

STEEL LEGION COMPANY UPGRADES		
<i>(Up to three company upgrades may be taken once per company.)</i>		
UPGRADE	UNITS	COST
Fire Support Platoon*	Add four Support Squad units	+100 points
Flak	Add one Hydra	+50 points
Griffon Battery	Add three Griffons	+50 points
Hellhound Squadron	Add up to three Hellhounds	+25 points each
Infantry Platoon*	Add six Infantry units	+100 points
Ogryns*	Add up to two Ogryns	+25 points each
Snipers*	Add up to two Snipers	+25 points each
Tank Squadron	Add three Leman Russ or Leman Russ Demolishers	+175 points

* These upgrades may add up to one Chimera per each of their units for +25 points each. All infantry units in the formation must be transported in Chimera if any are taken but you may not take more than one Chimera per unit in the formation.

STEEL LEGION SUPPORT FORMATIONS		
<i>(Any two support formations may be fielded per each company.)</i>		
FORMATION	UNITS	COST
Artillery Battery	Three Bombards or Manticores	250 points
Basilisk Battery	Three Basilisks	225 points
0-1 Deathstrike Battery	Two Deathstrikes	200 points

SPECIAL RULE

Imperial Void Shields²

Imperial Titans are protected by void shield generators. The number of void shields each Titan has is noted on the Titan's datasheet.

Each void shield will automatically stop one point of damage and then go down. Do not make armour saves for damage stopped by void shields, nor allocate Blast markers. Once all of the shields have been knocked down, the Titan may be damaged normally and you may make saving throws against any hits that are scored. Hits from close combat ignore void shields but units using their firefight values must first knock down any shields before they can damage the Titan.

Void shields that have been knocked down can be repaired. Each Titan can repair one downed void shield in the end phase of each turn. In addition, if a Titan regroups it can use the dice roll to either repair the void shield or remove Blast markers (e.g., if you rolled a 2 you could repair 2 shields, remove 2 Blast markers or repair 1 shield and remove 1 Blast marker).

2. Imperial Void Shields

Q: Do void shields stop a point of damage caused by: a failed dangerous terrain test, the extra hits from the result of an assault, a Blast marker on a broken formation, or the unit ending its second withdrawal move within 15cm of the enemy?

A: No.

Q: How many void shields go down if a war engine is hit by a Titan Killer weapon that causes multiple points of damage?

A: One per each point of damage, with any left over being allocated to the unit.

Q: Can a formation regroup to repair downed void shields if it has no Blast markers?

A: Yes.

Q: If a formation with multiple units with void shields regroups is the number of repaired void shields the same for each unit or shared between them?

A: Shared between them, e.g. if you chose to repair two void shields, one unit could repair two void shields or two units could repair one void shield each.

Q: Are void shields considered when determining how many hits a war engine should be allocated?

A: No.
